## Homework Week 10

Soal 1. Buatlah API untuk upload photo pada data movies

```
HW10 > src > routes > movies.routes.js > ...
1  const { Router } = require("express");
2  const { moviesControllers } = require('../controllers');
3  const { validator, multerMiddleware } = require('../middlewares');
4
5  const router = Router();
6  const { validate, requirements } = validator;
7
8  router
9    .route('/')
10     .get([validate(requirements.getMovies)], moviesControllers.getMovies);
11
12  router
13    .route('/:id')
14     .get([validate(requirements.getMovieById)], moviesControllers.getMovieById);
15
16  router
17    .route('/')
18     .post(multerMiddleware, [validate(requirements.createMovie)], moviesControllers.addMovie);
19
20  router
21    .route('/:id')
22     .put(multerMiddleware, [validate(requirements.updateMovie)], moviesControllers.updateMovie);
23
24  router
25    .route('/:id')
26     .delete([validate(requirements.deleteMovie)], moviesControllers.deleteMovie);
27
28  module.exports = router;
```

Soal 2. Terapkan design Pattern MVC + Repository pada code teman-teman
